

Intro to 2009 Science GCS

Use the following questions to become familiar with the revised Science GCS.

1. At what grade level would you begin to find the **For Review** and **For Development** sections?
2. Are "**Activities**" listed among the objectives optional?
3. About how much **time** should a teacher expect to spend on health in grade 6?
4. How many biomes must a **fourth grader** study?
5. What set of **objectives** is new to all grade levels?
6. Can the reproductive system be taught in **Grade 5**?
7. What is the most helpful aspect of the **lesson plan pages**? What is the **caveat** regarding them?
8. To which **Ohio science standard** and benchmark does objective 26 in Grade 7 relate?
9. What are the **two goals** for the entire science program?
10. What is the purpose of the grade level **life focus** and **environmental focus**?
11. Where would you find guidelines for **student safety** in "doing" science?
