21st Century Skills: A Practical Approach

The emphasis of 21st Century skills is to build student understanding about the following issues:

- global
- health
- economic/business
- civic issues

National Educational Technology Plan

The U.S. Department of Education is developing a new National Educational Technology Plan to provide a vision for the use of information and communication technologies in transforming American education with technical support from SRI International and a Technical Working Group. We are seeking public participation in the development of the Plan to ensure that it reflects the experience and expertise of the

educational community. With this goal in mind, you and your organization are cordially invited to share your input through the new National Educational Technology Plan.

Ohio 2010 Educational Technology Conference

Volunteer at the 2010 Ohio Educational Technology Conference and Receive Complimentary Registration for 3 Full Days!

Do you have an interest in educational technology and life-long learning? Are you interested in taking an active role in enhancing education through technology? If you answered yes to either of these questions consider volunteering at the 2010 Ohio Educational Technology Conference February 1-3, 2010 at the Greater Columbus Convention Center.

Conference volunteers provide assistance necessary for making the three-day Ohio Educational Technology Conference a reality. Volunteers agree to work eight hours onsite at the Greater Columbus Convention Center and in return, they receive complimentary full-Conference registration for all three days of the Conference!

Volunteer applications are considered on a first-come, first-served basis. Once a sufficient number of volunteer applications are accepted, any additional individuals submitting applications will be placed on a wait list. Applicants who are placed on the wait list are encouraged to register normally for the Conference. If a volunteer opportunity is later identified and is accepted by the wait-listed volunteer, the registration fee will be refunded.

The deadline for volunteer applications is November 11, 2009. Students enrolled in an educational degree program at any University System of Ohio school are encouraged to apply.

Please note that only online volunteer applications (no mail, fax or email) will be accepted. Please direct all questions about volunteering to eTech Ohio at conference@etech.ohio.gov or 877.383.2406.

Volunteers Receive Registration for 3 Full Days!
